Mechanical Engineering - Enterprise Enrollment Guidelines (Undergraduate) – August 2015

Enterprise project work (ENT3950/3960/4950/4960) and other Enterprise Concentration requirements (HU3120 and Enterprise Modules) are required for students completing the BSME-Enterprise Concentration as shown on the BSME-Enterprise Concentration flowchart. Students may enroll in Enterprise project work (e.g., ENT2950) and participate on an Enterprise team prior to declaring the Enterprise Concentration. If the student decides not to complete the Enterprise Concentration, any Enterprise project credits can be applied to free electives for the standard BSME. HU3120 can be used as 3 credits of General Education for Communication/Composition or Humanities/Fine Arts provided this requirement has not already been met. If the student chooses to complete the Enterprise Concentration, he/she must complete and sign a Curriculum Add/Drop form with an ME academic advisor to add the Enterprise Concentration.

Suggested Enterprise teams for mechanical engineering undergraduate students are shown below. It is possible for an ME student to participate on other Enterprise teams provided the student’s planned project work for ENT4950 and ENT4960 meets the capstone requirements dictated by the ME-EM department to satisfy ABET accreditation requirements. For all teams the capstone project must be defined for ENT 4950 and 4960 (full two-semester project) prior to registration in ENT 4950.

The minimum Enterprise team participation for ME students completing the BSME-Enterprise Concentration is four project semesters (ENT 3950/3960/4950/4960) with the same Enterprise team. Three one-credit Enterprise modules are also required. HU3120 is required and can be double-counted as General Education Communication/Composition or Humanities/Fine Arts provided this requirement has not already been met. Refer to the BSME-Enterprise Concentration flowchart notes (reverse/page 2 of flowchart) for more details. All required forms and templates are shown in the appendix of this document and are available on the wall outside the ME Advising Center (204/205 MEEM) and at http://www.mtu.edu/mechanical/undergraduate/advising/

ME-EM faculty advised or ME-focused Enterprises (Projects available that meet ME Enterprise capstone criteria)

Advanced Metalworks (AME, L01) – Advisor: Dr. Paul Sanders, M&M 603, sanders@mtu.edu
http://www.michigantechame.com/
Component design/modeling, fabrication (machining, casting, wrought processing), and performance characterization (microstructure, mechanical properties). Primarily working on industry-sponsored projects related to machining, casting, and wrought processing of metals and metallic components. Fabrication of patterns for sand molding, permanent molds, dies for die-casting, and specialized testing equipment for our sponsors and other enterprises on campus.
Registration: Students must apply at http://michigantechame.com/get-involved and email completed application to Dr. Sanders (sanders@mtu.edu) for Enterprise advisor approval. See instructions on page 6 for ENT 4950.

Aerospace (L21) – Advisor: Dr. Brad King, MEEM 1014, lbking@mtu.edu
http://www.aerospace.mtu.edu/
Invent and build spacecraft and gliders with an emphasis on systems engineering in the areas of avionics, propulsion, rocket design, and aerodynamics. Combination of competition and industry-sponsored projects.
Registration: Student may register for appropriate section without instructor/Enterprise advisor approval. Exceptions are ENT 1960, ENT 3980, ENT 4950/60 and ENT 4961 which require instructor approval. See instructions on page 6 for ENT 4950.
Baja SAE (Blizzard Baja, L06) – Advisor: Kevin Johnson, MEEM 701, kevinj@mtu.edu
http://www.enterprise.mtu.edu/ams/
Design and fabricate an off-road vehicle for competition with a focus on frame, chassis, and suspension improvements. Competition based on performance, manufacturability, cost, and ergonomics.

Registration: To join the Enterprise for the first time, submit a resume and a personal statement (why you want to join Baja and description of your intended contribution to the team) to the Enterprise advisor. If approved by the Enterprise Executive Board, contact the instructor to sign the Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval form to register for each project semester course (except ENT 4950, see instructions on page 6). Student must be in good academic standing (i.e., not on academic probation) to be registered for project credit on this team.

Blue Marble Security (L02) – Advisor: Dr. Glen Archer, EERC 629, gearcher@mtu.edu
http://www.bluemarblesecurity.com/
Working to develop security solutions for people in their homes, for local governments to protect their communities, for industries to protect their workers and their infrastructure, and for international markets. Additionally, developing initiatives in counter-surveillance, imaging solutions, environmental monitoring, and industrial process control.

Registration: Instructor (Enterprise advisor) approval. Submit a signed Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval form to register for each project semester course (except ENT 4950, see instructions on page 6).

Board Sport Technologies (BST, L11) – Advisor: Dr. Ibrahim Miskioglu, MEEM 821, imiski@mtu.edu
http://www.enterprise.mtu.edu/boardsports/
Invent innovative boarding designs, materials, and processes in the construction of boards and associated structures/products for a variety of board sports such as snowboarding, wakeboarding, and skateboarding. Work on industry-sponsored innovation projects. Also design terrain park obstacles and grooming equipment for board sports.

Registration: To join the Enterprise each semester, see an ME academic advisor during open registration periods. The academic advisor will check academic standing and register students for each project semester course (except ENT 4950, see instructions on page 6). Instructor (Enterprise advisor) approval is required for ENT 1960, ENT 3980 and ENT 4961. Student must be in good academic standing (i.e., not on academic probation) to be registered for project credit on this team.

SAE Clean Snowmobile Challenge (L07) – Advisor: Dr. Jason Blough, MEEM 1020A, jrb10@mtu.edu
http://csc.enterprise.mtu.edu/ Design and modify a snowmobile to achieve reduction in emissions and noise levels while maintaining high performance and fuel efficiency. Compete in both reduced and zero emission (all-electric) divisions.

Registration: To join the Enterprise for the first time, submit a resume and a personal statement (why you want to join CSC and description of your intended contribution to the team) to the Enterprise advisor. If approved by the Enterprise Executive Board, contact the instructor to sign the Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval form to register for each project semester course (except ENT 4950, see instructions on page 6). Student must be in good academic standing (i.e., not on academic probation) to be registered for project credit on this team.

Formula SAE Racing Team (FSAE, L05) – Advisor: Dr. Jim DeClerck, MEEM 927, jdeclerck@mtu.edu
https://sites.google.com/site/michigantechracing/ Design and build an Indy-style race car for competition with a focus on optimization of chassis, frame, wheel, and engine design. Competition includes both racing performance and design components.

Registration: To join the enterprise for the first time, submit a resume and a personal statement (why you want to join FSAE and description of your intended contribution to the team) to the Enterprise advisor. If approved by the Enterprise Executive Board, contact the instructor to sign the Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval form to register for each project semester course (except ENT 4950, see instructions on page 6). Student must be in good academic standing (i.e., not on academic probation) to be registered for project credit on this team.
Hybrid Electric Vehicle (HEV, L04)
Co-advisor: Mr. Bob Page, MEEM 604A, rwpage@mtu.edu; Co-advisor: Mr. John Lukowski, EERC 233, jtlukows@mtu.edu
http://hev.enterprise.mtu.edu/
HEV Enterprise is a multidisciplinary team that will design and build an advanced technology hybrid electric vehicle. The design objective is to modify a production powertrain to achieve over 60 mpg fuel economy while preserving vehicle functionality, safety, and performance. Program involves modification of a vintage 1949 Chevrolet pickup with a custom tubular chassis and focuses on maintaining vehicle performance while achieving environmental impact goals. Vehicle performance will be demonstrated to a select group of industry professionals in a "Chief Engineer's Challenge".

**HEV Enterprise students are strongly encouraged to pursue the Certificate in Hybrid Electric Drive Vehicle Engineering (CHEV) to gain the technical skills needed for success in this project.** Please see Marlene Lappeus (certificate advisor) in RL Smith 811 for more information.

*Registration:* To join the Enterprise for the first time, submit a resume and a personal statement (why you want to join HEV and description of your intended contribution to the team) to the Enterprise advisor. If accepted, contact the instructor to sign the Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval form to register for each project semester course (except ENT 4950, see instructions on page 6). Student must be in good academic standing (i.e., not on academic probation) to be registered for project credit on this team.

SAE Supermileage Systems (L13) – Advisor: Mr. Rick Berkey, M&M 722, rjberkey@mtu.edu
http://www.enterprise.mtu.edu/SSE/
Development and construction of a single-person, fuel-efficient vehicle for the SAE Development and construction of innovative, single-passenger, and extremely energy-efficient vehicles for the SAE Supermileage and Shell Ecomarathon Americas competitions. Supermileage is a multidisciplinary student-led organization where team members gain valuable experience in leadership, teamwork, communication, project management, and vehicle development including: body/chassis, powertrain, and electrical/controls. The Supermileage competition focuses on optimization of a four-cycle internal combustion engine whereas Shell Ecomarathon provides students experience in battery electric vehicle (BEV) development.

*Registration:* To join the Enterprise each semester, see an ME academic advisor during open registration periods. The academic advisor will check academic standing and register students for each project semester course (except ENT 4950, see instructions on page 6). Instructor (Enterprise advisor) approval is required for ENT 1960, ENT 3980 and ENT 4961. Student must be in good academic standing (i.e., not on academic probation) to be registered for project credit on this team.

Velovations (L31) –Advisor: Mr. Steve Lehmann, MEEM 608, sdlehman@mtu.edu
http://www.enterprise.mtu.edu/velovations/
Collaborating with the bicycle industry working on sponsored projects to develop new products and processes. Focus on product development from customer need, through product/process design and testing, manufacturing, supply chain management, marketing, and distribution.

*Registration:* Instructor (Enterprise advisor) approval. Submit a signed Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval form to register for each project semester course (except ENT 4950, see instructions on page 6). Student must be in good academic standing (i.e., not on academic probation) to be registered for project credit on this team.

**Add’l Enterprise teams (Abbreviation, Home Department) – Verify that ME project work is/will be available**
- Alternative Energy Enterprise (AEE, Chemical Engineering)
- Consumer Product Manufacturing (CPM, Chemical Engineering)
- GEAR (Engineering Fundamentals)
- Green Campus (Civil & Environmental Engineering)
- International Business Ventures (IBV, Institute for Interdisciplinary Studies)
- Open Source Hardware (Materials Science and Engineering)
- Robotic Systems (School of Technology)
- Wireless Communications (WCE, Electrical & Computer Engineering)
Other Enterprise teams may have acceptable capstone project work for ME students, but students must verify this prior to starting ENT3950 with the Enterprise advisor. Consultation with the ME-EM department for evaluation of possible projects is highly recommended.

Team web pages available through http://www.mtu.edu/enterprise/

**Declaring the Enterprise Concentration**

Students must declare the BSME-Enterprise Concentration (EMEE) with an ME academic advisor using the Curriculum Add/Drop form. This will ensure that the BSME-Enterprise Concentration degree audit is used to verify graduation requirements. The form will be filed with the Registrar (scanned document via email) and the concentration will be added to the student’s curricula. A scan of the form will be saved by the ME Advising Center and a copy will be emailed to the student. Declaration of the concentration is appropriate when the student has completed one or more project semesters with an Enterprise team and intends to complete the concentration requirements.

**Project Credit Courses**

**Getting Started**

- **ENT 1960** – Project work (first semester of team-specific Enterprise participation) – 1 credit. Intended for second semester of the first year. It only applies to the BSME degree as a free elective. Student may be required to meet team-specific criteria prior to enrollment.

**Project semesters not required for BSME Enterprise concentration (> 4-semester minimum commitment to team)**

- **ENT 2950** – Project work – 1 credit. Intended for first semester of the second year and/or when a student has six semesters remaining until graduation. May be used as an Enterprise module. Student may be required to meet team-specific criteria prior to enrollment.

- **ENT 2960** – Project work – 1 credit. Intended for second semester of the second year and/or when a student has five semesters remaining until graduation. May be used as an Enterprise module. Student may be required to meet team-specific criteria prior to enrollment.

- **ENT 3980** – Project work – 1 credit. Pre-capstone project semester. Intended for students that have completed ENT3950 and ENT3960 with the same Enterprise team, but lack the required pre-reqs to enroll in ENT4950. May be used as an Enterprise module. Student may be required to meet team-specific criteria prior to enrollment.

- **ENT 4961** – Project work – 1 credit. Post-capstone project semester. Intended for students that have completed ENT4950 and ENT4960. May be used as an Enterprise module. Student may be required to meet team-specific criteria prior to enrollment.

**Project semesters required for the BSME-Enterprise Concentration (all 4 must be with the same Enterprise team)**

- **ENT 3950** – Project work – 1 credit. Intended for first semester of the third year and/or when a student has four semesters remaining until graduation. Student may be required to meet team-specific criteria prior to enrollment.

- **ENT 3960** – Project work – 1 credit. Intended for second semester of third year and/or with three semesters remaining until graduation. Students should be registered for MEEM 3900 or MEEM3911 when registering ENT 3960 (if not already completed), and register for or be set up for other capstone design readiness requirements required for ENT4950 (see below and flow chart). Student may be required to meet team-specific criteria prior to enrollment.

- **ENT 4950** – Capstone Project work – 2 credits. The following are required prior to be registered in ENT4950.

  1. Satisfy pre-requisite requirements:
     - 2013 or earlier flowchart: MEEM3900, MEEM3000 (concurrent pre-requisite), MEEM3502 (concurrent pre-requisite), and ENT3950/ENT3960 in same Enterprise.
     - 2014 or later flowchart: MA3710, MEEM3201 (concurrent pre-requisite), MEEM3750 (concurrent pre-requisite), MEEM3911, and ENT3950/ENT3960 in same Enterprise.
2. Fully approved Verification of Senior Design Objectives through Enterprise Experience form (see form and detailed instructions in appendix).

Student may also be required to meet team-specific criteria prior to enrollment.

- **ENT 4960** – Capstone Project work – 2 credits. The above project submission will also define this course content as the second capstone project semester, although separate Enterprise advisor approval may be required for ENT4960 registration. Student may be required to meet team-specific criteria prior to enrollment.

**NOTES:**

- **The four required project semesters are not necessarily required to be completed in consecutive semesters.** Any semesters of non-participation due to co-op, study abroad, etc. should be coordinated by the student with the Enterprise advisor.

- Amended Verification of Senior Design Objectives through Enterprise Experience forms should be prepared and submitted to the ME Advising Center as appropriate if significant changes to the approved scope or deliverables of the project are made during either senior design project semester. These changes will also require ME-EM department review and approval. The final Verification of Senior Design Objectives through Enterprise Experience form on file at the conclusion of the senior design project semesters must represent the project and deliverables as completed by the student.

- All Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval forms required for registration into a given project semester must be fully and accurately completed by the student (M number, name, course number, CRN and lab section number for specific team section for requested semester, Enterprise name, and semester) before submission to the ME Advising Center for registration. An Enterprise advisor may send an ME academic advisor an email in place of the signed enrollment form as long as the appropriate student and section information is included. Certain Enterprises may require good academic standing for enrollment, as noted above. Academic advisors will confirm academic standing before registration in project semester courses where necessary.

**Enterprise Modules**

- 1 credit each (mostly)
- 3 total credits required
- Modules may be restricted by class standing, may require instructor approval for registration, may have pre-requisites, and/or may only be offered in one semester per academic year. Please see the BanWeb for course descriptions and these restrictions.

- See notes on BSME-Enterprise Concentration flowchart for approved modules for ME majors.
- Up to 2 credits of UN 3002 (co-op credits) may be used as Enterprise modules for ME majors.

**Required General Education (specific to Enterprise Concentration)**

- HU3120 is required and can be double-listed for 3 credits of General Education for Communication/Composition or Humanities/Fine Arts provided this requirement has not already been met.

This set of guidelines should answer many student questions regarding participation in the Enterprise program and incorporating that participation into the BSME curriculum. Students must take responsibility for being proactive and having a good understanding of their current status, progress, and overall academic plan towards graduation. The ME academic advisors are available for assistance.

## APPENDIX

### ENT4950 Registration Permission Form

**Verification of Senior Design Objectives through Enterprise Experience**

<table>
<thead>
<tr>
<th>Major: MECHANICAL ENGINEERING</th>
<th>Date: ________________</th>
</tr>
</thead>
</table>

**Part A:** To be completed by student.

- **Student:** __________________________
- **ID#:** __________________________
- **Primary major:** ______ 2nd major/deg: ______

- **Course:** ENT4950
  - **Semester/Year:** ______
  - **CRN:** ______
  - **e-mail:** __________________________

- **Enterprise:** __________________________
  - **Enterprise Advisor:** __________________________

  **Check if applicable:**
  - [X] ENT concentration (EMEE Declared [ ])
  - [ ] Enterprise Minor

**Part B:** To be completed by student and enterprise advisor. Form must be approved by your academic department prior to enrolling in ENT4950.

- [ ] Senior Design Ready: ______ (to be initialed by academic advisor)
- [ ] ENT 3950 (same team) [ ] MEEM 3900 [ ] MEEM 3900 (same team) [ ] MEEM 3000 (C) [ ] 3502 (C)

**Project Title:** __________________________

**Abstract:** Outline the project scope and deliverables assigned to this student (attach additional pages as needed).

- [ ] Preliminary Project Abstract
- [X] Final Project Abstract

**SEE ATTACHED (ME PROJECT BRIEF TEMPLATE)**

**ABET Criteria**

- [ ] 3 (a) Apply knowledge of mathematics, science and engineering.
- [ ] 3 (b) Design and conduct experiments, as well as to analyze and interpret data.
- [ ] 3 (c) Design a system, component, or process to meet desired needs.
- [ ] 3 (d) Function on multi-disciplinary team(s) as demonstrated by the execution of a team project that is too large, complex, or diverse for a single person. Partition a project into tasks and lay out a project plan. Execute the project and produce the required deliverables.
- [ ] 3 (e) Identify, formulate and solve engineering problems.
- [ ] 3 (f) Demonstrate understanding of professional and ethical responsibility.
- [ ] 3 (g) Communicate effectively.
- [ ] 3 (h) Gain understanding of the impact of engineering solutions in a global, economic, environmental and societal context.
- [ ] 3 (i) Recognize the need for, and an ability to engage in life-long learning.
- [ ] 3 (j) Gain knowledge of contemporary issues.
- [ ] 3 (k) Use the techniques, skills and modern engineering tools necessary for the practice of engineering.

Program specific criteria (please describe on back of this form)

**Approved by:**

- **Enterprise Faculty Advisor**
  - Date: __________________________

- **Academic Department**
  - Date: __________________________

- **2nd Major/Deg Academic Department**
  - Date: __________________________

**Return completed from to Enterprise Program Office, IIS, 722 M&M.**

**Enterprise Design Verification, Rev 4**

**Feb -12**
Mechanical Engineering – Verification of Senior Design Objectives through Enterprise Experience
(ENT 4950 Registration Permission Form)

The Verification of Senior Design Objectives through Enterprise Experience form must be completed by each BSME-Enterprise concentration (EMEE) student prior to registering for ENT4950. The form is not complete until approved by the ME-EM department. The purpose is to ensure that the student’s participation in the Enterprise program represents a culminating design experience as required by ABET (equivalent to ME-EM Senior Capstone Design). The basic procedure to be followed by ME students is provided below.

Students should consult with their Enterprise team advisor when defining the capstone-equivalent project they will be participating in. The completed form must be approved by the Enterprise team advisor and the ME-EM Associate Chair for Undergraduate Studies. After the Enterprise team advisor has signed the form, the student must submit the form to the ME Advising Center (2nd floor MEEM) for verification of pre-requisites by an academic advisor. The advisor will then submit the form to the ME-EM Associate Chair for Undergraduate Studies for review. The student will be enrolled in ENT 4950 when the form is returned with the Associate Chair’s approval. Dual degree students need departmental approval from both/all applicable departments.

The following steps are required prior to enrollment in ENT4950.

1. Complete Verification of Senior Design Objectives through Enterprise Experience form.
2. The form must show the applicable ABET criteria addressed by the project (checked off by the Enterprise advisor).
3. To be approved, the form must have an attached abstract/project brief that follows the required template for ME students. The project defined in this document should encompass both semesters of the project (ENT 4950 and 4960).
4. Form must be signed by the Enterprise advisor prior to submission to an academic advisor.
5. The academic advisor will verify the following senior design readiness pre-requisite requirements are satisfied. The student should not check these off.
   • 2013 or earlier flowchart: MEEM3900, MEEM3000 (concurrent pre-requisite), MEEM3502 (concurrent pre-requisite), and ENT3950/ENT3960 in same Enterprise.
   • 2014 or later flowchart: MA3710, MEEM3201 (concurrent pre-requisite), MEEM3750 (concurrent pre-requisite), MEEM3911, and ENT3950/ENT3960 in same Enterprise.
     The above are the same pre-reqs required for MEEM 4901.
     • Additionally, at least two semesters of project credit are required for ENT 4950 readiness. These prior semesters must be on the same Enterprise team as planned for ENT 4950/4960. Typically these are ENT 3950 and ENT 3960 (4 total semesters minimum on the same Enterprise team including the capstone project semesters).
6. The academic advisor will forward the completed form to the Associate Chair for final approval.
7. When the department-approved form is received back, an academic advisor will enroll the student in ENT4950. Students will not be enrolled in ENT 4950 prior to the completion of this process.

The approved form will be retained on file in the ME Advising Center and will also be submitted electronically to the Enterprise program office. It is recommended that this form be completed during the semester prior to taking ENT4950 in order to facilitate the registration process. The latest the form should be submitted is the end of the first week of classes of the semester in which ENT4950 is to be completed.

All that is typically required for ENT 4960 registration for the second semester of the capstone-equivalent project is the usual signed Enterprise Enrollment (instructor) Approval form or equivalent. However if there any significant changes to the project definition, or if the original submission did not cover the second semester of the project, the above department approval process will be required for ENT 4960 as well.

Recognizing that it may not be possible to accurately and precisely predict the design project progress/outcome in this timeframe (i.e., the design project scope and/or deliverables may change over the course of the two project semesters), amended Verification of Senior Design Objectives through Enterprise Experience forms must be prepared and submitted through the above process again, if necessary. The final form on file at the conclusion of the Enterprise project course sequence must represent the project and deliverables as completed by the student.

Questions can be directed to Danise or Ryan in the ME Advising Center (204/205 MEEM, inside the ELC).

7.9.2015
Abstract Template for Verification of Senior Design Objectives through Enterprise Experience Form

- This format must be followed for ME students submitting the above project form for approval, regardless of Enterprise team.
- This template is available for download at: http://www.mtu.edu/mechanical/undergraduate/advising/docs/ent4950-abstract-template.docx

Michigan Tech Enterprise Project Brief for MEEM Capstone

**Topic**

**Objective:**
One sentence project objective

**Background**
Concise background of problem domain...

What is driving the need?...

Include photo

**Project Scope**

Basic project scope here, maybe bullets of goals, specifics, etc.

Rough definition of design space...

Describe focus of team

**Project Goals**

- Bullet 1 with sub-bullets:
  - Desired outcome
  - Design for X
  - Performance goals
  - Etc...
- Some analysis deliverables along with design prototype, etc....
- Goal 1
- Goal 2
- Etc......

**Sponsor Can Provide:**

- Any special information, background, hardware, specialized testing equipment, etc.
- Anything in existence that may support project goals
- Bullet 1
- Bullet 2
- Bullet 3
- Etc....

**Timing**

Project Start: Thrusday of Week 1 (Semester I)

Project Completion: Finals of Week (Semester II)
ME Enterprise Enrollment Form for Enterprise Team Project Semester Registration

- Fill out completely with M number, course number, CRN and lab section number, Enterprise name, semester, and Enterprise advisor signature.
- May be replaced with an email from the Enterprise faculty advisor that includes information all the information on the form.
- Academic advisors will confirm academic standing before registration in project semester courses, when required.

Michigan Tech Mechanical Engineering Undergraduate Enterprise Enrollment (Enterprise Advisor) Approval
