

“ASEM, the American Society for Engineering Management, is the society that speaks for the profession of engineering management across the world.”

The objective of ASEM is to provide an opportunity for its members to advance the practice, principles, and theory of management to promote the development of the profession, to support the objectives of the society, and to serve the public interest.

What we do:

- Provide network of Engineering Management/Business students
- Connect with industry professionals
- Tour companies at our annual plant trip
- Organize a career panel during Career Fair that allows students to ask professionals questions about their jobs
- Provide a network between students and professors

**First Meeting:
Tuesday, September 12
5-6 pm
Chem Sci 104A**
