The Michigan Tech Finance Club presents

“High Frequency Trading in today’s markets”

February 2, 5pm in Fisher 130

Please RSVP to deeskola@mtu.edu if you plan on attending

Jim Northey of Lasalletech, current X9D Subcommittee Chair and Americas Region Co-chair at FIX Protocol Ltd. Will discuss current events which have affected our financial markets including the flash crash and other issues associated with high frequency trading strategies. Jim has worked in the financial industry for over 25 years and has worked as a regulator, market participant and support specialist.

FREE PIZZA
