

[Center for AI] presents...

RAJATH NAGARAJ

*"Navigating Project Management
in Data Science and Exploring AI
Innovations in Insurance."*

September 23rd

12:00 PM - 1:00 PM

Location: MEEM 403

Light Refreshments Provided

Rajath is a **Senior Data Scientist** at **Liberty Mutual Insurance**, working with AI and ML, including LLMs. In this session, Rajath will first dive into the essentials of industry-level project management in data science, exploring best practices for successfully managing complex projects from initiation to execution. The second part will focus on the transformative role of AI in various domains, with a deep dive into how AI is revolutionizing the insurance sector through applications like claims processing, fraud detection, quoting, underwriting, and personalized customer experiences.
