

Professional Opportunities

Patrick is looking for people who share a similar culture - one that promotes advancement, empowerment, and collaboration. We are looking for people who are committed to their profession, want to work as a team to achieve great things, and want to have fun and enjoy what they do.

We have special opportunities for the entry level professional including our Project Management Training (PMT) course and activities sponsored by our Young Professionals Group (YPG). We encourage employees to become involved in professional societies and interact with their peers. We believe making a difference extends beyond the borders of an office.

Patrick provides concept planning, engineering, pre-construction services, and procurement of materials and construction management of heavy infrastructure projects. Patrick accomplishes this with technical experts in the fields of civil, structural, transportation, water resources, railroad, environmental, geotechnical, and electrical engineering; geology, surveying, construction management, process control and Geographic Information Systems.

Join our team
