

USG CORPORATION
Project Engineer – Co-op
January, 2019 thru August, 2019
or
May, 2019 thru December, 2019

Engineering at USG is a broad-based activity where Engineers are exposed to multi-disciplinary work at various stages of projects. This hands-on experience provides entry-level Engineers the opportunity for high visibility and responsibility.

The Co-op Project Engineer provides engineering support within a plant manufacturing environment for a spring and a summer term or for a summer and a fall term.

Responsibilities include assisting with the planning and implementation of capital projects to improve employee safety, production efficiencies or product quality. The work is "hands on" and designed to give the student a broad view of manufacturing. The Co-op Project Engineer will be given "real" assignments that will have an impact within the facility.

USG has Co-op Project Engineer opportunities at 40+ locations across the U.S.

Qualifications:

For the January, 2019 thru August, 2019 co-op term, students must have attained at least sophomore status in school with graduation dates of May, 2019 thru May, 2021.

For the May, 2019 thru December, 2019 co-op term, students will have attained at least sophomore status in school with graduation dates of December, 2019 thru December, 2021.

Co-op students must be pursuing a degree in Mechanical, Electrical, Chemical, Civil or Industrial Engineering.

Minimum GPA of 2.75 required

Students available for a co-op opportunity in January 2019 must be able to work during two terms as follows:

- Spring, 2019 thru Summer, 2019 (January, 2019 thru August, 2019)

Students available for a co-op opportunity in May, 2019 must be able to work during two terms as follows:

- Summer, 2019 thru Fall, 2019 (May, 2019 thru December, 2019)

Candidates must be U.S. citizens or permanent residents

USG is an Equal Opportunity Employer
