Intern housing in refurbished 19th century farmhouse, known affectionately to our interns as the 'White House.'

COMPANY PROFILE

Advance Testing has been serving as one of the premier materials testing and inspection firms in the Northeast since 1984, providing high quality services for soils, aggregates, concrete, masonry, asphalt and structural steel products. Since the beginning, we have been fortunate to attract highly skilled individuals, and this has helped to sustain our steady growth throughout the years. Over the past two decades we've offered a competitive internship program that has opened up new opportunities for both our firm and our interns. As our corporate mission states, our employees are our number one asset, and it is their continued dedication and commitment that has enabled us to succeed. We hope that you will consider joining the Advance Testing team in order to see for yourself what working for our firm has to offer. For more information, please visit our website at www.advancetesting.com.

Advance Testing remains at the forefront of materials testing with its mobile laboratory facilities.
