

**Introduction:**

Abonmarche is seeking candidates to join our award-winning Land Surveying group in Southwest Michigan. We are interested in interviewing pending spring 2021 graduates with Surveyor In Training status, who have an interest in acquiring hands-on field and office surveying experience, and who wish to develop a professional surveying career and seek licensure. Our Michigan Land Surveying group is led by two Michigan professional surveyors with a combined experience of over 50 years in the surveying industry, and veteran crew chiefs with a wealth of knowledge and experience in a wide variety of surveying applications.

Please visit our website [www.abonmarche.com](http://www.abonmarche.com) for more information and to apply for the position.

Please direct any questions to Michigan Survey Group Director, Matt Reinking, at [mreinking@abonmarche.com](mailto:mreinking@abonmarche.com)

**Responsibilities & Duties:**

- Performance of field survey work under crew chief supervision
- Provide field support to crew operations such as construction staking, subdivision staking, boundary and topographic surveys
- Prepares daily field notes on projects
- Performs minor calculations in the field for staking
- Performs daily data uploads and downloads
- Assists with survey equipment and vehicle maintenance
- Assumes higher levels of responsibility and crew leadership with increased experience

**Qualifications & Skills:**

- SIT designation or ability to pass Fundamentals of Surveying exam
- Degree in Land Surveying, Surveying Engineering, Geospatial Engineering or equivalent
- Ability to plan, schedule work and complete assignments within established timeframes
- Dependable
- Capable of working with a multidisciplinary team of design professionals
- Experience with Topcon field equipment and data collection software a plus
- Experience with AutoCAD Civil 3D software a plus
