

## Airport Planning Consultant

At InterVISTAS Consulting, we lead the way in specialized consulting services, focusing on aviation, transportation, and tourism. With offices in the United States, Canada, and the United Kingdom, we've successfully delivered projects to over 500 clients in over 70 countries worldwide. Our team members work with a diverse range of clients including airports, port authorities, tourism associations, and governments. Our key to success is an energetic team of top-caliber professionals dedicated to making a difference in our industry. Check out what our team has accomplished here: [www.intervistas.com](http://www.intervistas.com).

### What You Will Do

InterVISTAS is seeking highly a motivated and passionate **Airport Planning Consultant** to join our growing aviation consultancy. Responsibilities of the consultant would include providing technical analyses related to airport terminal, airside, and ground transportation planning and operations. Specific assignments may include traffic engineering (quantitative and qualitative analysis of airport roadways and curbsides), terminal facility planning and design, airfield and airspace analyses, demand and capacity analyses, master planning, parking facility planning, policy studies, and preparing conceptual plans/layouts for airport facilities (i.e., rental car facilities, roadways, parking facilities, taxiways, terminals). InterVISTAS is willing to train the Consultant to fulfill these assignments.

### What We Are Looking For

#### *Required*

- Graduate degree (or undergraduate degree with two or more years of relevant experience) in civil engineering, transportation engineering, traffic engineering, industrial/operations engineering, or related field
- Strong analytical and problem-solving skills (quantitative and qualitative) with the ability to conduct thorough data analysis and provide sound interpretations
- Strong communication and writing skills with the ability to translate data and empirical results into compelling reports and presentations.
- Ability to visualize and develop concepts in two and three dimensions
- Proficiency with Microsoft suite
- Ability to build strong relationships with both internal and external clients
- Self-motivated, eager to learn, and resourceful as well as collaborative and team-oriented, as InterVISTAS is willing to train the Consultant on projects and in a team environment

#### *Desired, but not required to apply*

- Up to five years of related experience in airport planning, traffic engineering, civil engineering, or related aviation industry experience
- Proficiency with AutoCAD, MicroStation, GIS, Revit, and/or Sketchup
- Proficiency with traffic engineering software such as VISSIM and Synchro
- Proficiency data analysis and statistical packages
- Experience with simulation tools and data visualization

## Location

InterVISTAS offers flexible work arrangements including hybrid options. Location is open to where there is an InterVISTAS presence:

- Denver, CO
- Raleigh, NC
- Salt Lake City, UT
- San Francisco Bay Area
- Toronto, ON
- Vancouver, BC
- Washington D.C.

## Benefits and Perks

- Competitive salary (\$60,000 - \$90,000 annually), with potential for a performance-based bonus. Actual compensation will be tailored to reflect the unique experience and qualifications of the chosen candidate.
- Flexible work arrangements
- Opportunities for professional development and advancement through annual training allowances and routine inter-company learning sessions
- Health and retirement programs with corporate match

## Diversity, Equity, Inclusion, and Accessibility (DEIA) Commitment

InterVISTAS is committed to diversity, equity, inclusion, and accessibility (DEIA). We reflect the diversity of the communities in which we operate and encourage people with lived experience to apply. InterVISTAS is an equal opportunity employer, and we consider all qualified candidates, regardless of gender, race, sexual orientation, disability, or any other status protected by law.

## How to Apply

Please submit your resume and a cover letter detailing your qualifications and interest in the position to [careers@intervistas.com](mailto:careers@intervistas.com) with the subject line "Airport Planning Consultant\_Insert Your Name". We look forward to hearing from you!
