

Guest Lecture – Mr. Tayloe Draughon, CloudQuant ***Friday October 25th, 2019 10:05am via Zoom***

Guest Lecture for MTU FIN-4200 Derivatives and Financial Engineering

- Mr. Tayloe Draughon of CloudQuant LLC will provide an overview of the CloudQuant trading platform and discuss the use of unstructured data in algorithmic trading via a Zoom teleconference. The presentation should be of interest to all FIN, MIS, CS, and Data Science students.
- Mr. Draughon has worked in financial technology within the derivatives markets for nearly 30 years. Mr. Draughon is considered one of the visionaries in leading edge financial trading technology.
- CloudQuant has taken a unique approach in providing a platform to crowd source algorithmic trading using leading edge financial technology innovations. <https://info.cloudquant.com/about/>
- This presentation is open to Michigan Tech registered students and faculty.
