

Tesla x Michigan Tech

Tuesday, February 21 | 5:00-6:00p ET

Hiring Managers from Tesla will be hosting a presentation for Mechanical, Electrical, Controls, and Mechatronics Engineers to share a perspective into a Day in the Life at Tesla. Log into the session below to learn more about career pathways in these areas at Tesla and ways to help *accelerate the world's transition to **sustainable energy***.

Controls Engineering + Mechatronics at Tesla | Teams

This is a presentation exclusively for students at Michigan Technological University and will be hosted by an Intern Recruiter and Hiring Managers at Tesla. Engineers will provide a glimpse into their work and teams that they support, as well as offer tips on how to stand out as a candidate pursuing relatable roles across the organization.

Tesla Departments in attendance include Manufacturing Engineering, (Drive Unit) and Manufacturing Engineering (Power Electronics).

RSVP by Monday, February 20 at 5:00p ET via the QR Code.
