Auto-Owners Insurance
Coding, IT, and Actuarial/Data Science Opportunities

Monday, February 12
3:30 - 4:30 p.m. • Fisher 125

Please join Auto-Owners' IT/Actuarial Recruiter Samantha Woods, to learn about the company's work culture, available positions (full-time careers and paid internships), and much more.

Don't let our name fool you! We are NOT seeking people to sell insurance. Auto-Owners has a robust IT division (nearly 600 people!) with many software development and infrastructure opportunities.

Our Actuarial division is growing quickly and offers the traditional pricing positions plus data analytics/predictive modeling/business intelligence roles.

This session focuses on students with majors in Computer Science/Engineering, IT, Actuarial, Data Science, and Math, but other majors are also welcome. No matter the area, our associates contribute their diverse talents to help people restore their lives and keep financial security. Snacks will be
