

MichiganTech® 24th Annual
E N G I N E E R I N G
OLYMPICS

Tuesday, **March 24th**, 2015
8:30 AM - 1:30 PM EST
Michigan Technological University
Student Development Complex
Houghton, MI

CALL FOR TEAMS

Greetings from Michigan Tech! With excitement we are pleased to invite you and students from your school to participate in the 24th annual Engineering Olympics, which will be held on Tuesday, March 24, 2015. Building on the momentum and experience from the past 23 years, we are happy to announce the challenges included in the 2015 Olympics:

- | | |
|-----------------------|--------------------------|
| 1. Mackintooth Bridge | 3. Tennis Ball Dispenser |
| 2. Mousecar | 4. Trebuchet |

There are two additional challenges to those listed above. A fifth “mystery” challenge called Engineer Here will **require one team of up to four students per school**. All students will also participate in a short on-site challenge.

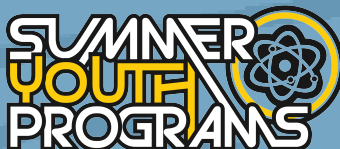

Along with this letter you have been given a packet including overviews, rules, and general plans for each of the four challenges. Please review this material carefully, as requirements for each competition are included (i.e. safety glasses must be brought and worn for Mackintooth Bridge). More details and information regarding the event can be found on the web.

All students and teachers will receive a 2015 Engineering Olympics t-shirt; each school will also have a section reserved to place competition projects, materials, and other belongings of your respective students.

If you're interested, register for the event: **1.** Email or call Liz Fujita (eafujita@mtu.edu / 906-487-1161) with your name, contact info, & school. **2.** Watch your email for individual student registration closer to the event date. If you have questions in between, contact Liz.
