

Industry Speaker Series

Hosted by the Pavlis Honors College

Oshkosh Program Execution Processes **Eric Linsmeier and Corey Voigt, Oshkosh Corporation**

Join Eric Linsmeier and Corey Voigt from Oshkosh Corporation as they discuss program execution processes and best practices used by the \$6B specialty vehicle and equipment manufacturer. Topics to be discussed will include the importance of assigning roles and responsibilities, establishing program milestones, evaluating design requirements and establishing and maintaining internal team procedures. Following the presentation, registered students will have an opportunity to interact with the experts at Oshkosh and discuss ways to implement the program execution practices within their own Enterprise team structure. Light snacks and refreshments will be served. All are welcome to attend!
