

# Discussion of CHyM technology developed by Yanfeng Automotive Interiors

Monday, March 21<sup>st</sup>

6-7pm

DOW 642

Join Jeff Potter, Senior Master Black Belt from Yanfeng Automotive Interiors, for a discussion on Yanfeng's CHyM (**C**ompression **H**ybrid **M**olding) technology. This Yanfeng developed polypropylene (PP) fiber and natural fiber hybrid mat is used as a light weight option in automotive interior design. Mr. Potter will discuss Yanfeng, the development of the CHyM technology and future development opportunities for the technology.
