

# Medical Careers Week

Learn about Careers in the Medical Field.  
Open to all students, faculty and the community.

January 19 - 22, 2016 | Memorial Union Ballroom

[www.mtu.edu/maps](http://www.mtu.edu/maps)

## Tuesday, January 19 - Medical Informatics Day

Join us to see how one of the fastest growing parts of the medical field, Medical Informatics, applies to a variety of majors including Information Technology, Computer Science, Computer Network System Administration, Health Sciences and Engineering majors. Learn how your major works in the medical field.

## Wednesday, January 20 - Medical Device Day

Come and meet representatives from biomedical companies to see how your major can make a difference. Possible recruiting opportunities.

## Thursday, January 21 - Medical Careers/Medical Laboratory Science Day

Learn how to attend medical school through the entire application process. Also, hear first-hand from medical students, physicians assistants and laboratory specialists on how to shape your career path in the medical field.

## Friday, January 22 - Allied Health Day

Allied Health comprises nearly 60% of the healthcare workforce. Find your career path in these short and informative presentations.
