

Entry Level Metallurgical Engineer

Location:	Sauk Rapids, MN
Salary Range:	DOQ
Benefits:	Comprehensive Benefits Package
Employment Type:	Full Time
Company Information:	Engel Metallurgical is a materials engineering consulting and testing firm that has been providing exceptional quality service, sound answers, and practical solutions to clients all over the world for more than 25 years. We are conveniently located in the St. Cloud, MN metropolitan area, just a short drive from Minneapolis/St. Paul.

Job Description: With our team of engineers and technicians, you will have the opportunity to develop your skills in materials engineering and failure analysis. Some of your responsibilities as a Metallurgical Engineer will include:

- Assisting Senior Metallurgical Engineers in performing metallurgical evaluations, laboratory testing, and technical writing
- Developing project proposals, cost estimates, and schedules and communicating them to the client
- Executing project plans, communicating progress and results to clients, and summarizing results in technical reports
- Providing training and guidance to technician staff
- Performing failure analysis, materials testing, materials test development, and site inspections/visits in support of industrial and legal clients
- Maintaining and improving the ISO 17025 accredited quality system

Qualifications:

- B.S. Degree in Metallurgical or Materials Engineering from an accredited college (M.S. or PhD is preferred)
- Strong communication skills, both oral and written
- Ability to manage multiple tasks with little or no supervision
- Dependable, responsible, reliable, and accountable with a strong work ethic
- Must become a licensed Professional Engineer when eligible
- Experience in metallurgical testing is a plus
