

Hertford County Job Posting

Position: **Metallurgist**

Department: General

Date: October 4th, 2012

Deadline: November 2nd, 2012

Basic Functions: Nucor Steel-Hertford County is seeking qualified applicants for the position of Metallurgist. Principal duties of the successful candidate will include participating in safety and housekeeping efforts, helping with process and product development, leading quality improvement efforts, leading training efforts, utilizing statistical process control tools to direct continuous improvement activities, and working closely with operations and maintenance teams to ensure continuous improvement.

Minimum Qualifications:

1. Bachelor degree in engineering from an accredited university
2. Must be willing to work anywhere in the mill

Selection Criteria:

1. Strong technical knowledge
2. Demonstrated problem solving ability and analytical skills
3. Demonstrated initiative and self-motivation
4. Demonstrated leadership skills
5. Demonstrated ability to coordinate multiple projects
6. Demonstrated ability to work in a team environment
7. Strong communication skills

Preferences:

1. Bachelor degree or higher in materials or metallurgical engineering from an accredited university
2. Experience with melting, casting, heat treating, hot rolling, plate rolling and reheating

Interested individuals should forward a one page resume to Chrissy Hughson resume@nucorhertford.com by **Friday November 2th, 2012**.
