

Fall 2013

## Research Assistant Internship

Position available with QTEK

QTEK (<http://qtekllc.com>) is a mineral technology company dedicated to improving health through the development of innovative antimicrobial solutions and advancements in mineral processing, evaluations, applications, and marketing. QTEK provides antimicrobial surface solutions with mineral additives and world-wide technical services. In addition, QTEK also provides consulting services for technical solutions in mineral processing, evaluation, applications, and marketing. QTEK was founded in 2009 and is located in Chassell, Michigan.

### Internship Position Title and Essential Duties

The Research Assistant Intern will perform mineral material processing, material synthesis, sample testing, data analysis, technical report preparation and other work as assigned.

### Position Details

The Research Assistant Internship position duration is 9/20/2013 through 12/13/2013. The rate of pay for this position is dependent on the Intern's level of knowledge and experience, ranging from \$8-\$12 per hour for 10–20 hours of employment per week.

### Education/Skills/Experience/Qualifications

Applications will be considered from graduate students or senior/junior level undergraduates in Material Science and Engineering, Biomedical Engineering, or Chemistry. Laboratory work experience and knowledge in material processing and microbiology are preferred.

### Desirable Personal Attributes

The ideal candidate should be motivated, have a passion for creation, be self-disciplined, and flexible, with a willingness to work in a laboratory environment with heavy dust, chemicals and noise.

### Company Contact and How to Apply
