

TRACKS to the Future!

Railroad Transportation and Engineering Program - 2024

Hosted by:

Support Student Transportation!

The 3rd iteration of the Hybrid Tracks to the Future Program registrations are rapidly progressing. This year we have 200 slots at 10 different Universities! One of our goals is to have the program available for students regardless of their financial status. FRA covers the program costs, but transportation to the host sites is not covered. Last year, 1 in every 6 students received transportation support. If you want to help the students to learn of rail transportation, below is how to provide a corporate donation that supports student travel. All donations come to Michigan Tech, who will reimburse students requesting assistance across all 10 campuses either fully or partially (depending on amount available) based on students' actual travel expenses.

SUPPORT LEVELS:

PLATINUM: \$2000+

DIAMOND: \$1000

GOLD: \$500

How-to Support Travel:

1. Donate to Michigan Tech Fund Using Link Below
2. Send confirmation email and company logo to Amanda (alkerttu@mtu.edu) to confirm donation

Tech Fund Link:
